The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, on the basis of any subsequent developments, information or events.

#### **MACROECONOMIC OVERVIEW**

At the beginning of the year 2023, the outlook for the world economy was clouded by aggressive monetary policy tightening, deteriorating financial conditions and declining confidence. Global trade growth slowed in the second half of 2022, mirroring the slowdown in industrial production and economic activity across advanced economies. Economic activity also deteriorated significantly in China, to its slowest pace since the mid-1970s, due to COVID-19 related restrictions, droughts, and ongoing property sector stress. The global outlook had deteriorated markedly throughout 2022 amid high inflation, aggressive monetary tightening, and uncertainties from both the war in Ukraine and the lingering pandemic. Soaring food and energy prices has eroded real incomes, triggering a global cost-of-living crisis, particularly for the most vulnerable groups. Growth in the world's three largest economies—the United States, China, and the European Union—has weakened, with significant impact on other countries. At the same time, rising government borrowing costs and large capital outflows has exacerbated fiscal and balance of payments pressures in many developing countries. Spurred by pent-up demand, lingering supply disruptions, and commodity price spikes, inflation reached multi decade highs last year in many economies, leading central banks to tighten aggressively to bring it back toward their targets and keep inflation expectations anchored. Further, the unexpected failures of two specialized regional banks in the United States in mid-March 2023 and the collapse of confidence in Credit Suisse—a globally bank—have roiled financial markets, with bank depositors and investors re-evaluating the safety of their holdings and shifting away from institutions and investments perceived as vulnerable. This banking crisis hits world economy already disrupted by pandemic, war, sanctions, geopolitical tensions, and climate shocks. The current global economic slowdown cuts across both developed and developing countries. Growth momentum has weakened in the United States, the European Union, and other developed economies, adversely affecting the rest of the world economy.

The recovery of global economy is hindered by various factors, such as high energy prices, trade disruptions, and volatility. However, it appears poised for a gradual recovery from the powerful blows of the pandemic and of Russia-Ukraine conflict. China is rebounding strongly following the reopening of its economy. Supply-chain disruptions are unwinding, while the dislocations to energy and food markets caused by the war are receding. Simultaneously, the massive and synchronous tightening of monetary Policy by most central banks should

start to bear fruit, with inflation moving back toward its targets. However, the International Monitory Fund (IMF) has projected that global growth will bottom out at 2.8 percent in 2023 before rising modestly to 3.0 percent in 2024. Global inflation will decrease, although more slowly than initially anticipated, from 8.7 percent in 2022 to 7.0 percent in 2023 and 4.9 percent in 2024. Moreover, with global growth over the coming years not expected to overshoot pre-2022 shock forecasts, the level of global output is unlikely to recover to its previous path (Source: https://www.imf.org/).

While significant challenges remain in the global environment, India was one of the fastest growing economies in the world with real GDP growing 7.7 percent year-on-year during Q1-Q3 fiscal year 2022/23 (April-March, FY22/23). Growth was strengthened by robust domestic demand - strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. While the overall growth momentum remains robust and real GDP growth for FY22/23 is estimated to be 6.9 percent, there were signs of moderation in Q3 as growth slowed to 4.4 percent year-on-year (y-o-y). There was also a change in the composition of domestic demand in Q3 FY22/23 with a lower share from government consumption as fiscal consolidation efforts continued. Estimates suggest that the pandemic induced a spike in extreme poverty (\$2.15), of up to 4 percentage points, moderated in FY21/22. Facilitated by widespread access to vaccines, extreme poverty rates are estimated to have declined to 13.8 percent in FY21/22, although not as low as pre-pandemic levels. Continued poverty reduction in FY22/23 will depend on how the economic rebound translates into productive jobs for the bottom half of the population and the welfare implications of fiscal consolidation efforts (Source: https://worldbank.org/).

World Bank Report indicates that India's economy has been relatively resilient to challenging external conditions, real GDP growth is likely to moderate to 6.3 percent in FY23/24 from the estimated 6.9 percent in FY22-23. Domestic demand is likely to remain robust despite an expected tempering of consumption growth. Consumption is expected to be constrained by rising borrowing costs, slower income growth and continued fiscal consolidation. Investment activity is expected to be supported by the government's sustained capex-push and improved corporate and banking sector balance sheets due to healthy corporate profits and a reduction in non-performing loans (NPLs), respectively. Moderating consumption growth, easing global commodity prices and the lagged effect of monetary policy tightening is expected to bring headline inflation within the RBI's target range despite core inflation remaining elevated. On the external front, the negative contribution of net exports will be smaller due to the strong performance of service exports and a gradual decline in the import bill. The narrowing trade deficit will contribute to the current account deficit reducing to 2.1 percent from around 3 percent in FY 22-23. The general government deficit will likely consolidate by 0.7 percentage points to 8.7 percent in FY23-24 due to continued, albeit slower, revenue growth and lower current spending, reflecting the withdrawal of pandemic-related support programs. The lower projected fiscal deficit will stabilize the debt-to-GDP ratio at around 83 percent (Source:

#### **Industry Scenario and Development**

The global processed food products industry is rapidly changing, with rising demographics, increased demand for branded and convenience food products and a growing consumer focus on organic food and clean label food products. Food processing ingredients are products derived from minimally processed food through refining, milling, pressing, or grinding processes. These products are not directly consumed but are used to prepare minimally processed foods.

The global food processing market is anticipated to reach USD 235.67 billion by 2028 (Source: <a href="https://www.verifiedmarketresearch.com/">https://www.verifiedmarketresearch.com/</a>). Innovation in food processing machinery is one of the major factors anticipated to bolster the food processing market. Other factors include the surge in the adoption of automated technologies in the food processing industry and increasing R&D in food processing machinery. Some of the emerging trends that have a direct impact on the dynamics of the food processing industry include:

#### A global shift towards healthy eating and healthy alternatives

The market's drivers are a shift in consumer preferences toward healthier foods, population growth, improved cold chain logistics, and the adoption of automation systems and products. Players in the food processing ingredients market are poised to capitalise on this opportunity. Health-conscious consumers have reduced their consumption of sweeteners, carbohydrates, and high-fat foods. Another trend that is expected to grow is the use of new raw materials derived from marine sources which are used due to desirable oil and fiber content.

#### Innovating process, products, and packaging

Novel processing techniques, products & packaging food processors are being developed & marketed in order to appeal to consumer demand. A most exciting new food processing trend is the use of high-pressure processing and it is gaining pace among food producers for more natural applications, such as ice cream and cookie dough. This is a low-temperature pasteurization technique.

High-pressure processing has its own challenges, such as the equipment expense, and the need for packaging which can withstand high pressure. It also does not completely eradicate microbes and therefore products refrigeration as well which adds to additional costs. Despite challenges, it is witnessing wider adoption as High-pressure processing manufacturers & packaging suppliers innovate to enhance throughput and hence decrease processing costs.

Another reason why food scientists are so excited about the future of food is the development of alternative proteins. The aim of alternative proteins is to make cell-based & plant-based products that possess the same/better taste & feel and cost the same or less than comparable animal proteins. While Plant-based foods have started replacing such animal products that include ice cream, meat, chicken & pet food, cell-based meat & seafood, such as burgers that have the taste with blend of animal protein.

In order to complement these spaces & create a more authentic eating experience there has been innovation in cell-based fats. These products leverage novel technologies, such as extrusion, which have been scaled up for commercial-scale manufacturing by engineers.

# Increasing consumer preference for sustainable products

There is consumer pressure that continues to grow in the food industry in order to remove the food industry's high reliance often on single-use plastics, decrease waste & produce food in a sustainable way.

#### Decreasing packaging waste

Since there is a science to food packaging, food businesses have to ensure food safety & satisfy consumers, but at the same time they should carefully balance product quality, appearance, functionality, price as well as environmental impact. Fueled by corporate responsibility as well as consumer demand, manufacturers are now taking a proactive approach to prioritizing sustainability in their packaging.

#### Economic development in developing region is providing abundance growth to global market

Economic development is critical to increasing the number of distributors of specialty food ingredients in the developing regions. The key parameters that determine growth in processed food consumption in developing economies are disposable income and population purchasing power parity. GDP growth in emerging markets is expected to drive demand for value-added products and thus distribution. Consumer preferences for functional foods and processed foods are changing in these emerging markets, which are also available in modern retail formats such as supermarkets and hypermarkets.

The food processing sector in India encompasses manufacturing enterprises in all the segments from micro to large industries. India is having competitive advantage in terms of resource endowment, large domestic market and scope for promoting value added products. India's food processing sector in recent years has been known for its high growth and high profits, thus, increasing its contribution to the world food trade every year. The food processing sector is the fifth-largest sector in terms of production, consumption, exports and there is growth potential. India's food processing industry is primed for rapid expansion and will contribute significantly to the country's economic prosperity. India ranks number one globally, in the production of pulses, pearl millet and cotton, and second in wheat, rice, groundnut, rapeseed & mustard and sugarcane. The country has emerged as the largest exporter of rice in the recent past. Such achievements became possible with the innovations in technologies including high-yielding varieties, irrigation, fertilizer, and farm policies (Source: www.icar.org.in).

#### **BUSINESS OVERVIEW**

Over the decade, India has achieved tremendous growth in terms of industrialization and globalization. Since India is a global agricultural powerhouse, agriculture with its allied sectors, is unquestionably the largest livelihood provider in India, especially in vast rural areas. It also contributes a significantly to the Gross Domestic Product (GDP). Sustainable agriculture, in terms of food security, rural employment, and environmentally sustainable technologies such as soil conservation, sustainable natural resource management and biodiversity protection, are essential for holistic rural development. Indian agriculture and allied activities have witnessed a green revolution, a white revolution, a yellow revolution and a blue revolution.

India's food processing sector is a sunrise sector that has gained prominence in recent years. Major processed food products exported from India include processed fruits and juices, pulses, guar gum, groundnuts, milled products,

cereals preparations, oil meals and alcoholic beverages. India created history in agriculture and processed food exports by exporting products worth US\$ 25.6 billion in FY22. Export of APEDA (Agriculture and Processed Food Product Expoert Devevelopment Authority) products stood at US\$ 7.4 billion as of April-June 2022, up 31% compared with US\$ 5.7 billion over the same period last fiscal, according to the Directorate General of Commercial Intelligence and Statistics. Furthermore, exports of processed fruits and vegetables grew by 59.1%; cereals and miscellaneous processed items grew by 37.66%; meat, dairy and poultry products grew by 9.5%; basmati rice grew by 25.5%; non-basmati rice grew by 5%; and miscellaneous products grew by 50%. The Indian food processing industry is among the largest in the nation in terms of growth, production, consumption and exports (Source: https://apeda.gov.in/).

The Company is engaged in the cultivation and processing of Culinary Herbs, Mushrooms, Fruits, and Vegetables for more than three decades. It is primarily involved in the cultivation and processing of Mushrooms. Herbs. Fruits and Vegetables in Freeze-Dried, Air-Dried and Individually Quick-Frozen (IQF) form. The Company's Air-dried products includes Oregano, Basil, Parsley, Thyme, Sage, Mint, Coriander- Cilantro, Dill, Marjoram, Savory, Chervil, Chives, Curry Leaves, Fennel, Lemon Grass, Rosemary, and Thai Basil. Further, Papaya, Strawberry, Mango, Banana, Pineapple, Sapota/Chikoo and Apple are the Frozen fruits products. Baby Corn, Mushrooms and Sweet Corn are also available in Canned form. The Company's Nutraceutical products includes White Musli, Wheat Grass, Stevia, Shitake Mushroom, Shallaki, Senna, Raw Papaya, Moringa, Holy Basil, Hibiscus, Reishi Mushroom, Ginger, Garlic, Giloy, Green Peppercorn, Chamomile, Bitter Gourd, Bahera and Asparagus/ Shatavari. The Company has manufacturing facilities in Dehradun, Uttarakhand, India. Further, the Company has set-up a manufacturing facility for Air Drying/ Freeze Drying of Vegetables, Fruits, Culinary Herbs and spices, at Krishnagiri in Tamil Nadu.

#### • Mushroom Business

Surge in consumption of vegan diet across globe has become a key growth factor of mushroom market. High nutritional contents found in mushrooms have made their use popular in diet. The global mushroom market is witnessing a significant growth in the demand for mushrooms with each passing year. As per the "Mushroom Global Market Report 2023" by "The Business Research Company", the global mushroom market size grew from \$57.18 billion in 2022 to \$62.44 billion in 2023 at a compound annual growth rate (CAGR) of 9.2%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, causing inflation across goods and services and affecting many markets across the globe. The mushroom market size is expected to grow to \$90.88 billion in 2027 at a CAGR of 9.8% (Source: https://www.thebusinessresearchcompany.

The global Mushroom Market by geography has the dominant share in Asia Pacific. The consumption of mushroom in Asian countries such as Japan, India, and others is increasing at a significant pace attributed by

increasing production along with the increased import of mushrooms in these countries. Utilization of advanced mushroom processing techniques by mushroom producers and distributors in Europe is set to contribute to the growth of the processed mushroom sales across the region. The Company has a strong international presence (the US and European markets) through established distribution channels and exports, primarily to Europe and the US

#### · Fruits and Vegetables

Fruit and vegetable processing refers to a method of increasing shelf life and retaining the quality of fruits and vegetables for long-term preservation. When fruits and vegetables are processed, their shelf life is extended. India is the largest producer of Fruits and Vegetables and there is a huge opportunity in harnessing the potential of fruits and vegetables processing in the form of frozen (IQF), canned, pulp, puree, paste, sauces, snacks, dressings, flakes, dices, dehydration, pickles, juices, slices, chips, jams and jelly. The growth in the demand for convenience food products is driving the fruit and vegetable processing market. Convenience food is often referred to as tertiary processed food that is ready-to-eat processed foods. Convenient food includes fruits and vegetable which is prepared (usually by processing) in a manner that they can be consumed directly.

#### · Herbs and Spices

The changing consumer preferences are driven by the increasing awareness of the health benefits of herbs and spices. The consumers are becoming more health conscious and are looking for healthy food options. The herbs and spices offer a wide range of health benefits such as reducing the risk of chronic diseases, boosting immunity, and improving digestion. The shift in consumer palates in favour of low-sugar foods products and rising interest in exotic flavours are driving herbs and spices sales. The Company is India's leading freeze-dried herb, food, and vegetable maker. It has made its position as a pioneer in freeze-dried herb manufacture. The Company seek to bridge distribution gap with the best quality produce of freeze-dried herbs, fruits, and vegetables in the market. Freeze-dried herbs have a well-known shelf life. The food processing industry is booming with unique opportunities. Freeze-dried herbs are one particular niche of preserved foods with massive potential for value addition.

#### **OPPORTUNITIES AND THREATS**

The food processing industry across the globe is rapidly rising with changing demographics, increasing demand for branded and convenience food products, growing trend towards clean

label products and other factors. Processed food products include, range of minimally processed food products to complex food preparations to combine a wide array of food processing ingredients. Increasing demand for processed food products along with increasing consumers spending on-the go food products is the prime factor creating market growth of food processing ingredients in the near future. Food processing ingredients covers ingredient such as, emulsifiers, flavors, spices, enzymes, proteins, preservatives and others. Asia pacific is one of the fastest growing regions with increasing demand for packaged food products with India being one of the largest exporters. Changing lifestyle, increasing working women and increasing consumption ready to eat food products in urban areas is pushing the market for food processing products, ultimately the market for food processing ingredients.

#### · Opportunities

India is one of the world's largest food producers where processed food is merely 8% of the total produce. However, the country's food processing market has immense potential in terms of production, consumption as well as export and import prospects. In comparison to other countries, Indian processed food industry has an advantage in terms of easy availability of manpower and raw materials, untapped market of over one billion populations, government initiatives in the form of loans, technical support, and tax holidays. The massive demand for Indian food products across the globe has opened a plethora of opportunities for Indian manufacturers resulting in the growth of the food processing industry.

#### · Fortification of Foods:

Food fortification involves adding micronutrients such as vitamins and minerals to increase the nutritional value of food products. Currently, 46% of the vegetable oil produced by big players in the refined packaged oil industry in India is being fortified. Also, more than 36% of packed milk in India is fortified. Vitamin D fortified milk helps in reducing the incidence of rickets. Owing to the increasing consumption of protein and vitamin-enriched food products, the fortified food industry in India is growing at a rapid pace. To fight malnutrition in India, the government has launched several initiatives to boost the fortification of food products.

#### • The Rise of Plant-Based Foods:

The plant-based food industry in India is growing at a tremendous pace as consumers are adopting a sustainable lifestyle. Vegetarians, flexitarians, meat consumers, and protein deficient consumers are considered as the target consumer group. Plant-based food sector mainly comprises plant-based meat and milk products.

#### The shift towards Chemical-Free Food Additives:

Due to the rising demand for natural food additives, food processing industries are shifting away from chemical-free additives and replacing them with natural food additives such as stevia, coconut sugar, black pepper oleoresin, gum arabic, carrageenan, etc. There are various segments of food additives such as preservatives, sweeteners, food colorants, antioxidants, emulsifiers, flavour enhancers, thickeners, etc. Natural food colorants are produced from parts of plants, algae, fungi, and mould. Natural sweeteners include thaumatin, glucose-fructose syrup, xylitol, neohesperidin DC, etc. Many food processing

industries are using synthetic food additives as they are less expensive.

## • The Surge in Demand for Immunity Boosting Food Products:

An increase in awareness among consumers about the health benefits of immunity-boosting foods is driving the market. According to product type, immunity-boosting products are broadly classified as foods, beverages, and dietary supplements. Immunity-boosting foods are further classified as instant foods and seeds while beverages are classified as juice, probiotic shots, etc. The outbreak of the COVID-19 pandemic has accelerated the growth of immunity-boosting foods. An increase in adulteration of foods has caused a lack of nutrition among consumers and has resulted in a surge in demand for immunity-boosting foods.

#### Challenges

The food processing industry transforms raw food grains, fruits, vegetables, or dairy products into merchandise that have a high shelf life. They have better taste and more nutritious values; for instance, products like jams, jellies, juices, etc. The food processing industry has excellent potential as it makes products that are used by all households regularly. This sector generates a lot of employment and helps reduce the problem of high food wastage. If the processed products have a unique taste and conform to high standards of hygiene, then they can provide huge profits. There are several challenges that the food processing industry has to face and overcome on an everyday basis.

#### Difficulties in living upto the Food Safety Standards:

Processed foods like juices, jams, and jellies must conform to high food safety standards. The fruits and vegetables used for processing undergo long periods of storage. Hence there is a high probability that they might begin to rot. Also, if the acidity levels of the jams and juices are not kept under tight check, they begin to harbor microorganisms. The growth of bacteria in canned food produces several life-threatening diseases like Botulism and Shigellosis. Hence, governments worldwide have set very high safety standards for these industries. Thus, food processing industries try their best to operate under sterile conditions. Minimizing the scope for human contact reduces the chances of bacterial growth. If clean automated machines are used for all processes, bacterial growth cases can be significantly reduced. Hence, these industries try to use automatic sealing machines for sealing containers, mechanical blades for cutting raw materials, etc.

#### Limited availability of equipment:

Food processing industries need equipment like blades, valves, mixers, sorting machines, etc. Due to financial constraints, the appropriate equipment may sometimes be unavailable. In many of these industries, sorting and cleaning operations are done manually. Again, the workers might lack the technical know-how required to operate all the equipment/ machines. All this reduces the overall efficiency of the industry. For instance, valves are a must to control the movement of liquids and gasses while processing raw materials. Sometimes it is necessary to stop or open the flow of a substance totally, and sometimes it has to be done in a controlled manner.

(CIN L15133UR1990PLC023970)

Therefore, it is essential to have knowledge of operating equipment/ machines.

#### - Lack of economic sustainability:

Food processing industries frequently suffer from a lack of economic sustainability. Several factors reduce the profit margins of these industries, such as stiff competition, high food safety compliance burdens, etc.

The industry is vulnerable due to climatic and environmental factors, resource scarcity, and periodic governing regulatory changes. Other significant challenges include infrastructure, seasonal fluctuations in raw material availability, and a lack of knowledge resulting in technological barriers in developing regions. It is a major impediment to the growth of the market for food processing ingredients. Furthermore, an insufficient supply chain in developing economies is limiting the market growth. Further, the food processing industry has to deal with pests, government policies, and other challenges. However, there are examples of small-scale food processing units doing very well and creating a brand for themselves not only in the country of origin but also overseas Thus, using innovative ideas and dedicated efforts, all challenges can be dealt with effectively.

#### **FUTURE OUTLOOK**

The food processing industry continues to experience significant growth and to handle that growth, organizations are spending more time evaluating existing conveyor systems, determining the need for new systems, and selecting the best system for their specific needs. India's food processing sector, a shining pillar of the Indian economy, has been booming in recent years. Holding a place among the largest food processing industries in the world, it is responsible for a significant portion – about 32 per cent – of India's overall food market. India, has emerged as the second largest producer of agricultural goods and an abundant source of fruits and vegetables. Its dairy, marine, poultry, and meat industries are thriving and leading the world in production. Additionally, the Indian gourmet food market is rapidly expanding at a rate of 20 per cent annually. Driven by the high-value processing of various agricultural products, increased urbanization, rising disposable incomes, the rise of nuclear families, and the demand for convenient food, India's food processing industry is expected to grow at rapid pace. The COVID-19 pandemic has further boosted growth by shifting customer preferences towards branded packaged goods and promoting a healthier lifestyle. With the market becoming increasingly competitive, customers now have more options with the introduction of new products and market. This strong growth is expected to continue in the foreseeable future.

Further, with changing consumer needs, the government's focus on growth of food processing sector, developing infrastructure, and improvements in agriculture, India's food processing ecosystem is at an inflection point, poised for exponential growth. Domestic players as well as international players have identified this potential and are gearing up for this paradigm shift which will see India move up the global rankings as one of the top food processing countries.

#### **RISKS AND CONCERNS**

As the food processing industry attempts to recover from the aftermath of the pandemic, industry leaders are encouraged to identify, evaluate, and mitigate the risks in the market. Consumers' changing preferences, supply chain disruptions, current economic conditions, and, most importantly, food

safety, are some of the risks of food processing. The management of risk is embedded in the corporate strategies of developing a portfolio of world-class businesses that best match organisational capability with opportunities in domestic and international markets, developing capabilities and competencies for the future in order to enhance competitiveness and win in the markets of tomorrow. The Company continues to focus on a system-based approach to business risk management and has been able to mitigate such risks by working upon strengthening its supply chain and increasing its customer base. The Company has in place sound corporate governance structure and practices in place aligned with the food processing industry. It also has thorough understanding of regulator expectations, business processes and challenges.

## INTERNAL CONTROL SYSTEM, THEIR ADEQUACY AND OPERATIVE EFFECTIVENESS

Recognising and tracking the Internal Control Systems is a critical part in an organization and the Company has a wellframed internal control system commensurate with the size and nature of its business. These internal controls ensure safeguarding of assets from unauthorised use or disposition, proper recording and reporting of all transactions and compliance with applicable regulatory requirements. The internal control systems are reviewed and modified continually to keep up with the changes in business environment and statutory requirements. The company has a secured system of internal controls which works together with internal financial controls that are repeatedly administered by the Management. The Internal Control System of the Company shows proficiency in operations; make the best use of resources and adhere with all applicable laws and regulations. The Company's internal auditors are responsible for providing assurance on compliance with operating systems, internal policies and legal requirements, as well as suggesting improvements to systems and processes. The Company has also identified and documented key internal financial controls for critical processes across plant, warehouses and offices wherein financial transactions are undertaken. The financial controls are evaluated for operating effectiveness through management's ongoing monitoring and review process, and independently by Internal Audit. Key controls are examined during the year and restorative and precautionary actions are taken for any fault. Internal audits are organized systematically by designated audit teams. Key internal audit findings are presented to the Audit Committee at its quarterly meetings. Most importantly, the senior management sets the tone at the top of no tolerance to non-compliance and promotes a culture of continuous innovation and improvement. The Audit Committee sanctions the risk based internal audit plan which also reviews worth and efficacy of the Company's internal financial controls.

#### **HUMAN RESOURCES/INDUSTRIAL RELATIONS**

The Company's conviction that human capital is the primary factor in driving strategic growth has been strengthened. The Company has developed a work culture that emphasises the creation of an organisation prepared for the future. The Company fosters a safe, inclusive and collaborative work environment for the overall growth and welfare of the employees. The HR policies of the Company are aimed at attracting, nurturing and retaining talented employees in a constantly evolving business environment while ensuring trust, transparency and teamwork amongst its employees. The Company continuously organises training programmes for its

employees in different areas *viz*. technical skills, behavioural skills, business excellence, general management, advanced management, leadership skills, customer orientation, safety, values and code of conduct enabling them to evolve with technological advancements. The Company's permanent employee strength stood at 478 as on 31st March, 2023. The Company's industrial relations continued to be harmonious during the year under review.

#### **ENVIRONMENT, OCCUPATIONAL HEALTH AND SAFETY**

Maintaining safety of all stakeholder(s), be it internal or external, is a humongous task, especially in today's challenging times. The aim of the Company is to develop business while improving its environmental performance in order to create a more sustainable future. In order to achieve this, the Company continues to focus on measures for the conservation and optimal utilization of energy in all the areas of its operations.

Factories are encouraged to consistently improve operational efficiencies, minimize consumption of natural resources and reduce water usage, energy usage and carbon emissions while maximizing production volumes. The Company is committed to conducting its operations with due regard to the environment and providing a safe and healthy workplace for employees. The collective endeavour of the Company's employees, at all levels, is directed towards sustaining and continuously improving standards of environment, occupational health, and safety, in a bid to attain and exceed international benchmarks.

### INDEPENDENT AUDITOR'S REPORT

TO
THE MEMBERS OF
FLEX FOODS LIMITED

### Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying Financial Statements of **FLEX FOODS LIMITED** ("The Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March 2023, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of the affairs of the Company as at 31st March, 2023, and the losses and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### **Basis for Opinion**

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr.No	Key Audit Matters	Auditor response
1.	Evaluation of uncertain tax positions	Principal Audit Procedures
	The Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.	Obtained details of completed tax assessments and demands for the year ended March 31, 2023 from management.  We also considered legal precedence and other rulings in evaluating management's position on these uncertain
	Refer Notes 32 to the Financial Statements	tax positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as at April 1, 2022 to evaluate whether any change was required to management's position on these uncertainties.
2	Capitalization of Property, Plant and Equipment (PPE)	Our audit procedures included and were not limited to the following:
	The Company continues to invest in significant capital projects with capital expenditure during the current year.	Examined the useful economic lives with reference to the Company's historical experience, intended use and expected number of shifts PPE will be used and
	The significant level of capital expenditure requires consideration of the determination of the timing of asset ready for its intended use by the management	and Equipment in compliance with Ind AS – 16 on 'Property,
	and the nature of costs incurred to ensure that capitalisation of Property, Plant and Equipment meets the specific recognition criteria in Ind AS 16, 'Property, Plant and Equipment', specifically in relation to assets constructed / installed by the Company and the direct	implementation and operating effectiveness of controls in respect of the timing and amounts capitalised with the Property. Plant and Equipment:
	incidental cost capitalised with the Property, Plant and Equipment.	Performed substantive analytical procedures assessing the nature of Property, Plant and Equipment capitalised by the Company to verify the validity of amounts capitalised and evaluating whether assets capitalised meet the recognition criteria set out in Ind AS 16.

Sr.No	Key Audit Matters	Auditor response
	Due to the above, capitalisation of Property, Plant and Equipment involves the risk of material misstatement as a result of the long-term nature and complexity of the specific projects and hence has been identified as Key Audit Matter.	<ul> <li>Performed substantive analytical procedures assessing the nature of Property, Plant and Equipment capitalised by the Company to verify the validity of amounts capitalised and evaluating whether assets capitalised meet the recognition criteria set out in Ind AS 16.</li> </ul>
3	Revenue Recognition	Our audit procedures included and were not limited to the following:
	The Revenues of the Company consists primarily of sale of products.  The Company assesses the activities promised in a contract and identifies distinct performance obligations in the contract, where applicable. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables involves significant judgment.	Evaluation and testing of the design andoperating effectiveness of the relevant businessprocess controls, inter-alia controls over thecapture, measurement, and authorization ofrevenue transactions.
		Selected a sample of continuing and new contracts and performed the following procedures:
		Tested, on a sample basis, sales transactions to the underlying supporting documentation which includes goods dispatch notes and shipping documents.
		Read, analysed and identified the distinct performance obligations in these contracts.
		Compared these performance obligations with that identified and recorded by the Company.
		Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.
		<ul> <li>Samples in respect of revenue recorded for time and material contracts were tested using a combination of approved time sheets including customer acceptances, subsequent invoicing and historical trend of collections and disputes.</li> </ul>
		Considering any trade discount/ volume discount given to the customer as adjustment to sales consideration and verifying the control process adopted by the company in recognizing the same in financial statement in accordance with Ind AS 115.
4.	Ind AS 116 on Leases	Our audit procedures included the following:
	The standard provides a single lease accounting model, requiring lessees to recognise a right of use asset ("ROU asset") and a corresponding liability on the lease commencement date. It provides exemption for leases with lease term of 12 months or less or where the underlying asset has a low value.	<ul> <li>Assessing the accounting regarding leases with reference to consistency with the definitions of Ind AS 116. This includes factors such as lease term, discount rate and measurement principles;</li> <li>Examining the Company's judgement in establishing the underlying assumptions. This includes assessing the discount rate used in determining the lease liability; and Ensuring the necessary disclosures in the Financial Statements.</li> </ul>

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act,2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and
  perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a
  basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting
  from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit
  evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the
  Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw
  attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to
  modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However,
  future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances,

(CIN L15133UR1990PLC023970)

we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

### ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF "FLEX FOODS LIMITED" FOR THE YEAR ENDED 31<sup>ST</sup>MARCH 2023

Referred to in paragraph1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Flex Foods Limited of even date.

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of the Section 143 of the Companies Act, 2013.

### Report on the Internal Financial Controls

We have audited the Internal Financial Controls over financial reporting of "FLEX FOODS LIMITED" ("the Company") as of 31st March 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act. 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's Judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### II SIGNIFICANT ACCOUNTING POLICIES

### A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules 2015 as amend from time to time by the ministry of corporate affairs , the provisions of Companies Act, 2013, and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued Indian accounting standard is initially adopted or a revision to an existing Indian accounting standard requires a change in the accounting policy hitherto in use. Financial statements of the company are prepared under the historical cost convention on the accrual basis except for the following assets and liabilities which have been measured at their fair value.

- Certain financial assets and liabilities measured at fair value (refer relevant accounting policies for more details).
- Biological Assets which are valued at fair value less cost to sale at each reporting period.

The financial statements of company are presented in Indian Rupees (INR) rounding off to nearest Lacs.

### B. USE OF ESTIMATES AND JUDGEMENTS

The preparation of the financial statements is in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates.

The estimates and underlying assumptions are reviewed on a going concern basis.

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, in the period of the revision and future periods if the revision affects both current and future period.

### K. FINANCIAL INSTRUMENTS

### Initial Recognition:

(i) The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables/payables and where cost of generation of fair value exceeds benefits, which are initially measured at transaction price. Transaction costs directly related to the acquisition or issue of the financial assets and financial liabilities (other than financial assets and financial liabilities through profit & loss account) are added to or deducted from the cost of financial assets or financial liabilities. Transaction cost directly attributed to the acquisition of financial assets or financial liabilities at fair value through profit & loss account are recognized immediately in the statement of profit & loss.

### **Subsequent Recognition:**

### Non-derivative financial instruments

- (i) Financial assets carried at amortised cost: A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) Financial assets at fair value through other comprehensive income: A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### L. TRADE RECEIVABLES

Trade receivables represents amount billed to customers as credit sales and are net off;

- a) any amount billed but for which revenues are reversed under the different Indian accounting standard and
- b) impairment for trade receivables, which is estimated for amounts not expected to be collected in full.

### M. LOANS AND ADVANCES

Loans and advances are non derivative financial assets with fixed and determinable payments. This category includes the loans, other financial assets and other current assets.

Subsequent to initial measurement, loans and receivables are carried at amortized cost based on effective interest rate method less appropriate allowance for doubtful receivables.

Loans and advances are further classified as current and non-current depending on whether they will be realized within 12 months after the balance sheet date or beyond.

### N. FINANCIAL LIABILITIES

- Financial liabilities are initially recongised at the fair value of the consideration received less directly attributable transaction cost.
- (ii) Subsequent to initial measurement, financial liabilities are measured at amortised cost. The difference in the initial carrying amount of the financial liabilities and their redemption value is recognised in the statement of profit & loss over the contractual term using the effective interest rate method. This category includes the following class of liabilities; trade and other payables, borrowing; and other financial liabilities.
- (iii) Financial liabilities are further classified as current and non-current depending whether they are payable within 12 months after the balance sheet date or beyond.
- (iv) Financial liabilities are derecognized when the company is discharge from its obligation, they expire, are cancelled or replaced by a new liability with substantial modified terms.

### O. EARNING PER SHARE

Basic Earnings Per Share is computed by dividing the net profit attributable to the equity shareholders of the company to the weighted average number of Shares outstanding during the period & Diluted earnings per share is computed by dividing the net profit attributable to the equity shareholders of the company after adjusting the effect of all dilutive potential equity shares that were outstanding during the period, the weighted average number of shares outstanding during the period including the weighted average number of equity shares that could have issued upon conversion of all dilutive potential.

### P. INCOME TAXES

### (i) CURRENT TAX

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Current tax is expected tax payable on the taxable income for the year, using the tax rate enacted at the reporting date.

Current tax assets and liabilities are offset where the company has legal enforceable right to offset and intends either to settle on net basis, or to realise the assets and settle the liability simultaneously.

### (ii) DEFERRED TAX ASSETS / LIABILITIES

Deferred tax is recognised for all taxable temporary differences and is calculated based on the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the assets can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset and when the deferred tax balances relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but the Group intends to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

### (iii) CURRENT AND DEFERRED TAX FOR THE YEAR

Current and deferred tax are recognised in the statement of profit & loss, except when they relates to items that are recognized in other comprehensive income or directly in equity, in which case, the current tax and deferred tax is recognized directly in other comprehensive income or equity respectively.

### Q. EMPLOYEES BENEFITS

The company provides for the various benefits plans to the employees. These are categorized into defined benefits plans and defined contributions plans. Defined benefit plans includes the amount paid by the company towards the liability for Provident fund to the employees provident fund organization and Employee State Insurance fund in respect of ESI and defined benefits plans includes the retirement benefit such as gratuity and company absentees both accumulated and non-accumulated.

- (i) In respect of Defined Contribution Plans contribution made to the specified fund based on the services rendered by the employees are charged to Statement of Profit & Loss in the year in which services are rendered by the employee.
- (ii) Liability in respect of Defined Long Term benefit plan is determined at the present value of the amounts payable determined using actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit methods. Gains and losses through re-measurements of the net defined benefit liability/assets are recognized in other comprehensive income.Past Service cost is recognized in the statement of profit & loss in the period of plan amendment.
- (iii) Liabilities for accumulating paid absences is determined at the present value of the amounts payable determined using the actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit method. Actuarial gain or losses in respect of accumulating paid absences are charged to statement of profit & loss account.
- (iv) Liabilities for short term employee benefits are measured at undiscounted amount of the benefits expected to be paid and charged to Statement of Profit & Loss in the year in which the related service is rendered.

### R. IMPAIRMENT

### Financial assets

The company recognizes loss allowances using the expected credit loss model for the financial assets which are not fair valued through statement of profit and loss. Loss allowance on trade receivables, with no significant financing component is measured at an amount equal to lifetime expected credit loss. For all financial assets expected credit losses are measured at an amount equal to 12-month ECL unless there has been significant increase in credit risk from initial recognition in which case these are measured at lifetime expected credit loss. The amount of expected credit losses or reversal that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the profit or loss for the period.

Intangible assets, investment property and property plant & equipment are evaluated for recoverability wherever events or changes in circumstances indicate that their carrying amount may not be recoverable.

For impairment testing, assets that do not generate independent cash flows are grouped together into cash generating units (CGUs).

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost of disposal and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such asset is considered to be impaired, the impairment to be recongised in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit & loss if there have been changes in the estimates used to determine the recoverable amount. The carrying amount is increased to its revised recoverable amount, provided that this amount does not exceeds the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss has been recognized for the asset in prior years.

### S. LEASES

### The Company as a Lessee

The Company's lease asset classes primarily consist of leases for land, Office building and equipments. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates of the Company. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option. Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

For Short Term Leases and leases for which underlying asset is of low value, Lease payments are recognize as an expenses on a straight line basis over a lease term.

### The Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

### T. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

- (i) A provision is recognized, if as a result of past event the company has present legal or constructive obligations that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation.
- (ii) Contingent liabilities are disclosed for possible obligations arising out of uncertain events not wholly in control of the company. Contingent assets are not recognised in the financial statements. However due disclosures are made in the financial statements for the contingent assets, where economic benefits is probable and amount can be estimated reliably.

### U. FOREIGN CURRENCY TRANSACTIONS

- (i) The Company's functional currency is Indian Rupees. Transactions in currency other than Indian Rupees are recorded at the rate, as declared by the Central Board of Indirect Taxes and Customs department, ruling on the date of transaction.
- (ii) Foreign Currency monetary assets and liabilities remaining unsettled as at the balance sheet date are translated using the exchange rates as at the balance sheet date. The gain or loss resulting from the translation is recognized in the statement of profit & loss. Non-monetary assets and liabilities which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary assets and liabilities which are carried at fair value or other similar valuation denominated in foreign currency are reported using the exchange rates that existed when the fair values were determined.
- (iii) Exchange differences arises on settlement/translation of Foreign Currency monetary assets and liabilities are recognised as income/expense through the Exchange Fluctuation Account in the year they arise.
- (iv) Transaction gain or losses realized upon settlement of foreign currency transaction are included in determining the net profit for the period in which transaction is settled.
- (v) Exchanges difference arises on settlement / translation of foreign currency monetary assets and liabilities relating to acquisition of Property, Plant and Equipment till the period they are available for use for commercial production, are capitalized to the cost of assets acquired and provided for over the useful life of the Property, Plant and Equipment.

### V. DEPRECIATION

- (i) Normal depreciation on all property, plant & equipment except Land & Intangible Assets are provided from the date of available for use for commercial production on Straight Line Method at the useful lives prescribed in Schedule-II to The Companies Act, 2013 and after providing for the residual value (maximum to the extent of 5%) of the Property, Plant and Equipment as determined by the management.
- (ii) Depreciation/Amortization on addition /deletions to Property, Plant and Equipment is provided on pro-rata basis from/to the date of addition/deletions.

### W. GOVERNMENT GRANTS

- (i) Capital Subsidy received from Government as contribution towards Capital Outlay for setting up the PPE is treated as Capital Grants which is recognized as Income in the Statement of Profit & Loss over the period and in the proportion in which depreciation is charged.
- (ii) Revenue Grants are recognized in Statement of Profit & Loss.

### X. PURCHASES

- (i) Purchases returns / rebates are adjusted from the purchases of the year in which the returns take place / rebates allowed.
- (ii) Purchases are accounted for "Net of GST Credit availed on eligible inputs" .

### Y. CLAIMS BY/AGAINST THE COMPANY

Claims by/ against the Company arising on any account are provided for in the accounts on receipts/acceptances.

### Z. BORROWING COST

Borrowing cost are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing cost directly attributable to the acquisition or construction of qualifying /eligible assets, intended for commercial production are capitalised as part of the cost of such assets. All other borrowing costs are recognized as an expense in the year in which they are incurred.

### Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 103 - Business Combinations

Ind AS 107- Financial Instruments: Disclosures

Ind AS 102- Share Based Payment

Ind AS 109 - Financial Instruments

Ind AS-101- First time adoption of Ind AS

Ind AS 115- Revenue from Contracts with Customers

Ind AS 34- Interim Financial Reporting

The Company does not expect the amendments above to have any significant impact in its financial statements. Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 - Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

The expected benefits increases are based on the same assumptions as are used to measure the Company's defined benefit plan obligations as at 31st March 2023. The Company is expected to contribute Rs. 98.22 lacs to defined benefits plan obligation fund for the year ending 31st March 2024.

The significant accounting assumptions are the discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonable possible changes of the respective assumptions occurring at the end of the reporting period while other assumptions are constant.

If the discount rate increases/(decreases by 0.5%), the defined benefit plan obligations would decrease by Rs. 22.08 Lacs (increase by Rs.21.03 Lacs) as at 31st March 2023.

If the expected salary growth increases/(decreases by 0.5%), the defined benefit plan obligations would increase by Rs. 21.86 Lacs (decrease by Rs.20.13 Lacs) as at 31st March 2023.

The sensitivity analysis presented about may not be representative of the acutal change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Fair Value hierarchy disclosures:

Level 1- Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Input other than quoted price included within Level 1 that are observable for the assets or liability; either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

Financial Risk Management:

In the course of business, amongst others, the Company is exposed to several financial risks such as Credit Risk, Liquidity Risk, Interest Rate Risk, Exchange Risk & Commodity Price Risk. These risks may be caused by the internal and external

factors resulting into impairment of the assets of the Company causing adverse influence on the achievement of Company's strategies, operational and financial objectives, earning capacity and financial position.

The Company has formulated an appropriate policy and established a risk management framework which encompass the following process.

- identify the major financial risks which may cause financial losses to the company
- assess the probability of occurrence and severity of financial losses
- mitigate and control them by formulation of appropriate policies, strategies, structures, systems and procedures
- monitor and review periodically the adherence, adequacy and efficacy of the financial risk management system.

The Company enterprise risk management system is monitored and reviewed at all levels of management, Internal Auditors, Statutory Auditors, Audit Committee and the Board of Directors from time to time.

#### Credit Risk:

Credit Risk refers to the risks that arise on default by the counter party on its contractual obligation resulting into financial loss to the company. The company may carry this Risk on Trade and other receivables, liquid assets and some of the non current financial assets.

In case of Trade receivables, the company has framed appropriate policy for extending credits period & limit to each customer based on their profile, financial position and their external rating etc. The collections of trade dues are strictly monitored. In case of Export customers, even credit guarantee insurance is also obtained.

Company's exposure to Credit Risk is also influenced by the concentration of risk from top five customers. The details in respect of the % of sales generated from the top customer and top five customers are given hereunder.

Particulars	Current Year	Previous Year
Revenue from Top Customer	42%	31%
Revenue from Top Five Customers	71%	69%

The credit risk on cash, cash equivalent and fixed deposit are insignificant as counter parties are public sector banks. The non current financial assets include security deposit with Govt. body, hence no associated credit risk

#### Liquidity Risk

Liquidity Risk arises when the company is unable to meet its short term financial obligations as and when they fall due.

The company maintains adequate liquidity in the system so as to meet its all financial liabilities timely. In addition to this, the company's overall financial position is very strong so as to meet any eventuality of liquidity tightness.

Contractual maturities of financial liabilities are given as under:

(Rs in Lacs)

Particulars	As at 31st March 2023	Due within 12 months from Balance Sheet Date	Due beyond 12 months of Balance Sheet Date
Borrowings	23,354.34	5,074.78	18,279.56
Trade payables	1,898.03	1,898.03	-
Other Financial Liability	743.12	743.12	-
Lease Liability	213.50	43.00	170.50
Other Liabilities	476.81	476.81	-
Current Tax Liability	-	-	-

## Interest Rate Risk:

Generally market linked financial instruments are subject to interest rate risk. The company does not have any market linked financial instrument both on the asset or liability side. Hence no interest rate risk.

However the interest rate in respect major portion of borrowings by the Company from the banks and others are linked with the Benchmark / Base Prime lending rate of the respective lender and in case of foreign currency borrowings the same is linked with LIBOR. Every fluctuation in the base rate of the bank either on the higher or lower side will result into financial loss or gain to the company

The amount which is subject to the change in the interest rate is of Rs. 18,993.86 Lacs out of the total debt of Rs. 23,354.34 Lacs

Based on the structure of debt as at year end, a one percentage point increase in the debt would cause an additional expense in the net financing cost of Rs. 189.93 Lacs.

## Foreign Exchange Risk:

The company is exposed to the foreign currency risk from transactions. Transactional exposures are arising from the transactions entered into foreign currency. Management keeps a close watch of the maturity of the financial assets in foreign currency and payment obligations of the financial liabilities.

The Company did not undertake hedging to cover exchange risk and kept its foreign exchange exposure open mainly due to its supplies to customers overseas which were on Credit and it recoursed to discounting of such supply bills with its bankers. In this situation, the Exchange rate was crystalised on the date of discounting & did not remain open ended till the date of realization of Export proceeds. This measure also mitigated the Exchange Rate Risk.

The carrying amount of the Group's material foreign currency dominated monetary Assets and Liabilities at the end of the reporting period is as below

(Rs in Lacs)

Currency	Monetar	y Assets	Monetary	Liabilities
	Current Year Previous Year		Current Year	Previous Year
USD	459.96	424.26	8.49	-
Euro	329.00	382.04	14,607.74	8,621.52
	788.96	806.30	14,616.23	8,621.52

Following Table Summaries approximate gain/(loss) on Company's Profit before tax on account of appreciation and depreciation of underlying foreign currencies of the above table

Currency	Effect on Profit before tax	
	Current Year	Previous Year
Closing USD Rate (In Rs.P.)	81.73	73.50
Closing Euro Rate (In Rs.P.)	88.82	83.79
5% appreciation (Rs. In Lacs)	(691.36)	(390.76)
5% depreciation (Rs. In Lacs)	691.36	390.76

## Commodity Price Risk:

Raw materials which company procures from the open market are agricultural products, production of which is directly effected by weather conditions and pricing is linked to the prevailing demand & supply conditions of the products. Company mitigate this risk by bulk buying during season for off season use.

The company has been operating in a global competitive environment due to its dependence mainly on Exports. The competition has been becoming more fierce and it has been subject to major competition from other Asian Countries largely China which has been causing pressure on the product prices & volumes resulting into drop in the selling prices and profit margins.

In order to combat this situation, the Company formulated manifold plans and strategies to develop new customers, focus on newer product developments to increase its product portfolio and also accelerate its efforts to develop domestic market for its products. In addition to this, it has also been focusing on improvement in products quality and productivity of operations. With these measures, company expects to counter the commodity price risk.

## Risk Management Strategy Related to Biological Assets

## Regulatory and Environmental Risks

The Company is subject to laws and regulations in the locations in which it operates. The company has established environmental policies and procedures aimed at compliance with local environmental and other laws.

## Supply and Demand Risk

The Company is exposed to risks arising from fluctuations in the price and sales volume of its product i.e. Fresh Mushroom. Management performs regular industry trend analysis to project harvest volumes and pricing. Where possible, the company manages this risk by aligning its harvest volumes to market supply and demand.

#### Climate and other Risks

The company's biological asset is exposed to the risk of damage from climatic changes, diseases and other natural forces. The company has extensive processes in place aimed at monitoring and mitigating these risks, including growing under controlled conditions.

## Note:

- # The significant Change in these ratios are due to the additional borrowings raised by the Company during the year for its Expansion Project at Kirishnagiri, Tamilnadu. The operation of this plant has partially commenced from 26th September,2022. The plant will fully commence in FY 23-24.
- ## Change is due to increase in expenses in the current year due to partially capitalization of Tamilnadu Plant.
- ### Change is due to increase in Closing Stock which is due to Low sale volumes in comparison to estimations because of the recession in both USA and Europe market as company has major part of its sales from export.
- (v) No proceeding has been initiated or pending against the Company for holding any benami property under the Benami Transaction (Prohibition) Act, 1988 (43 of 1988) and the rules made thereunder.
- (vi) The Company has had transaction with a struck off Company under Section 248 of the Companies Act, 2013 due to non-filing of annual returns namely M/s Maxin Hydro Dynamic India Private Limited which is not related. However, as per the information and explanations received and documents reviewed, the aforesaid struck off company has already filed an application for the restoration of name before NCLT Chennai and the matter is subjudice.

- (vii) No funds have been received by the Company from any person(s) or entity(ies), including foreign entities (Funding Parties), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other person(s) or entity(ies) identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (viii) There was no charge or satisfaction, which is yet to be registered with concerned Registrar of Companies, beyond the period permitted under the Companies Act, 2013.
- (ix) The Company has not been declared as wilful defaulter by any bank or financial institution or other lender.
- (x) There's no transaction which has not been recorded in the books of accounts and disclosed or surrendered as income during the year in the tax assessments under the Income Tax Act, 1961.
- (xi) The Company is in compliance with the regulation as to the number of layers of companies prescribed under clause (87) of section 2 of the Companies Act, 2013 read with Companies (Restoration on number of Layers) Rules, 2014.
