

FLEX FOODS LIMITED- The Leaders Of The Food Industry

We are pleased to introduce Flex Foods Ltd. (FFL) as your one stop destination when it comes to the Culinary Herbs, Mushrooms, Fruits, and Vegetables in all kinds of processed (Freeze Dried, Air Dried, IQF and Canning) forms from India. FFL is an associate company of UFLEX, which has an annual turnover of over US \$1.50 billion, and is 100% export oriented.

FFL's state of the art processing facilities are situated at the foothills of the Himalayas in the northern Indian city of Dehradun and our products are exported to the highly conscious markets of the Europe, USA, Canada, Middle East, Australia, Israel, UK, Germany, Belgium, etc.

Quality Products

The secret to the success lies in the hard work required to maintain the product quality, unmatched service, and flexible approach. Flex Foods monitors pesticide residues on crops through the use of Maximum Residue Limits (MRL) and the farmers are provided with the high quality seeds and best farm practices to ensure that each and every thing that we grow is totally NATURAL. We have received many awards for our excellence in quality from the Government of India and its various agencies.

Please find below a glimpse of FFL's product portfolio:-

Optimum Resources

FFL strictly follows quality standards right from the fields to the packaging and storage. Each and every ingredient passes through stringent chemical, physical and microbiological procedures to ensure that the ingredient is safe and of the highest quality, free from adulteration and meets regulatory requirements.

No wonder Flex Foods is pioneer in Vacuum Freeze Dried technology in India. Flex Foods uses the latest preservation techniques like Freeze drying, Canning, Air drying, and Frozen/IQF to keep the colour, shape, flavour and nutritional value intact without fail, so that every time you open up a Flex Foods product you are sure of the top-notch quality of the food.

FFL's technically well equipped world class facility is accredited for global quality control systems as per below:

- BRC-Global standard-Grade A From 'SGS' for FD, AD and IQF Facilities
- ISO 22000:2005 –From 'SGS' for our mushroom farms
- Global G.A.P. – From 'SGS' for our Mushroom Farms and for our Contracted Farms
- Kosher –From 'JK Kosher'
- Organic Certification 'NPOP-NOP' and 'NPOP-EU' From 'USOCA'
